CLAIMS 34-49 ARE PENDING

1. The following is an examiner's statement of reasons for allowance:

**Claims 34-39** include: *a designation specifying by dimension which measures are additive and which measures are non-additive*. This is interpreted in light of the Specification ['174 COL 4 lines 53-64] to be a flag included in the measure indicator. This feature, in combination with the other elements of the claims, is neither anticipated nor suggested by the prior art of record.

**Claims 40-49** include a test and resulting action that deals with a measure that is insufficiently fine in order to respond to a metric query. This feature, in combination with the other elements of the claims, is neither anticipated nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
